SWEET DEAL!

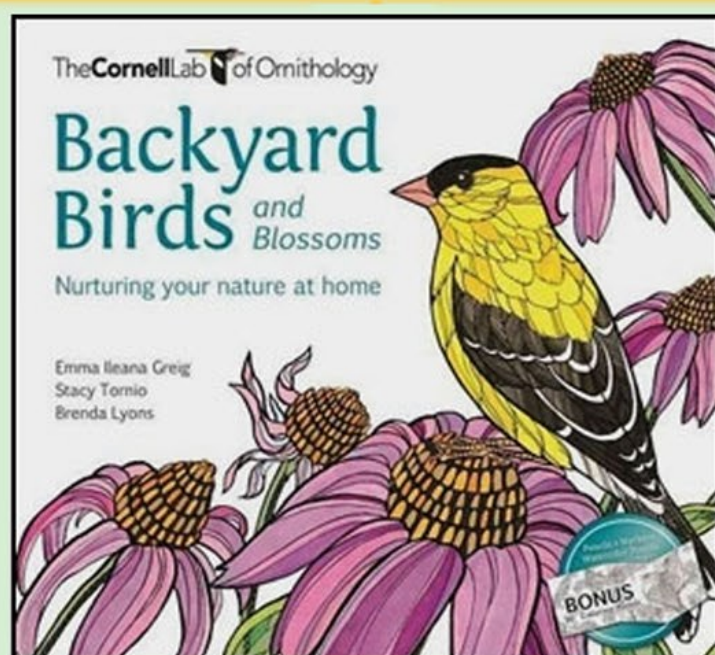

Handmade bluebird house: cedar planks donated by **Lowe's Lumber** (lowes.com); wood cut, drilled & nailed by **Kansas City Woodworkers Guild** (kcwoodworkersguild.com). The Guild delighted in the opportunity to construct these bluebirdhouses for us.

Bluebirds of Happiness

Mountain Eastern Western

ALSO we'll send you our 4-page documentation of when the birds migrate; when eggs are laid; when broods fledge; when and where to place the nestboxes; height; which direction to face; winter roost boxes; how to keep killer sparrows away, etc.

If you are not a fan of The Cornell Lab of Ornithology (birds.cornell.edu), we strongly urge you to become a supporter. They have many things going on; we use their vocalization recordings, Merlin ID app and so much more. This coloring book looks like stained glass. Each drawing depicts a lovely songbird & the trees or flowers they feed upon.

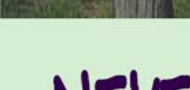

You will find a full color spread of popular birds as a sample colored in and one left blank. This price includes the book (and more to follow) which includes shipping and handling.

Plus we're going to send you a Bluebird Fact Sheet with the coloring book, published by the N.A. Bluebird Society (nabluebirdsociety.org). This provides some great info on placement, mounting bluebird houses, and even setting up a bluebird trail.
